Principal
Central College Bangalore

Sir,

If there are any B A State Scholarships available for Students from the Mofussil may I beg the favour of your Kindly granting one each to Messrs Vijayaraghava chari and Durgappa Ex F A Students of our College.

Both are young, possessing abilities above the average, both are painstaking, assiduous, respectful and intelligent likely to do well in their degree examination

When I was 1st assistant in the Central College during Mr Waters' Principalship we had a couple or more scholarships reserved for successful F A Students coming from the Mofussil presuming the like indulgence holds I proffer these Candidates for election

Mr Venkata Varadaraja Iyengar our Deputy Commissioner tells me he has made provision for some scholarships, the nomination of which lies with you, if any of these have not been promised to others as yet may I recommend my two boys to your kind patronage?

I beg to remain

My dear Mr Seshadri Iyer

The enclosed application from Mr Kasi Chinnaya for Scholarships for 2 of his F-A passed Candidates, increases the No of applicants which sent in my letter the other day

I am awaiting your decision as to F-A and B-A Scholarships

2/ before I can settle our Junior F-A as well as our Senior B-A ones I have about 26 applications for Junior F-A Scholarships and that Class now Contains over 40 Students

Thus you will see that our grant is miserably deficient & that my proposal to keep the Rs 50 has

No 41 Bangalore 9th March 1884

From, The Head-Master - Medical School
Bangalore

To, The Education Secretary
Bangalore

Sir, With reference to my letter No 96, dated 22nd January 1884 applying for a year's leave, I have the honour to submit that I intend to proceed to England on the beginning of the next month,—the time most suitable to me to start — and should therefore feel much obliged if the Dewan would be pleased to favour me with a reply to the same in time

I beg further to submit that, in accordance with the terms of agreement made at the time of my appointment, regarding the increase of my salary to Rs 260/- per mensem at the end of two years of my service and for which a formal application was submitted in time to the late Dewan, the necessary orders may be passed so that I may be permitted to draw the arrears of my increase of pay that has been due since 6th November 1882,- the date on which I completed the 2nd year of my service —

for which act of kindness I should feel myself in duty ever bound.

Yours truly,
Your most Obed't Servant,
D. A. Chase Jones
Head-Master Md. Ed. School

Yours truly

Bangalore 26th March 1884

No 42

From,
The Head Master, Medical School,

To,
The Education Secretary
Bangalore

Sir, With reference to your letter No 3377 of the 20th instant I have the honour to submit that the terms of the agreement were to the following effect —

That I would get Rs 200/- per mensem for the first two years of my service, and at the end of that period, Rs 250/- per mensem

That I would have all the previleges regarding leave & pension, as were then in force for the uncovenanted Civil service

That my grade or rank in the Local Service could not be, at the time fixed as the installation was to take place within a few (five) months of my appointment, but it was hoped that after the ceremony, steps would be taken, as soon as practicable, to re organize the Mysore Medical Dept (in which it was hoped that I should be graded) when I would be able to judge for myself the further prospects under the Government of H H the Maha-rajah

These were briefly the terms offered by

by the late Mr Rungacharlu, the then
Revenue Secretary to the Chief Commissioner
by whom I was apprenticed and
accepted by me

In forwarding herewith for the favorable consideration of the Dewan an application from C Da Vijaya Raghavachar a F A Student of the Shimoga College applying for a Mysore Scholarship to study in the Poona Civil Engineering College, has the honor to state that the Undersigned heard very favorable accounts of the applicant from Mr Strang the Head Master and also

he appears to be the first on the list of passed candidates from this school at the following examinations — Middle School Matriculation and F. A

J. E. [illegible]
Deputy Commissioner

JS

S Venkataravada Iyengar Esq BA,M
Deputy Commissioner
Shemoga District

Respected sir

I respectfully beg to state that I am one of those who passed the F A Examination held in December 1883

With the object of prosecuting my Studies in the Arts course in order to qualify myself the better for studying for the Engineering profession which it was my wish to take up eventually, I had submitted an application to Mr King, our Head Master requesting him to move Government to grant me a scholarship to enable me to study for the B A, degree in the Bangalore Central College.

That application Mr King was pleased to forward with a favorable recommendation, but not having received any reply from Government for a long time, I addressed an application to Mr King to recommend me for an Engineering Scholarship at least

This application, Mr King took with him when he lately went to Bangalore with the object of speaking personally with the Educational Secretary and the Dewan, and of submitting the second application in case the first one be not granted.

I am not aware whether Mr King has so forwarded the second application or not, nor have I received any intimation from him but as the Engineering Scholarships may be filled up soon, I beg to submit this application direct to you and request that you will kindly be pleased to recommend me for a scholarship to enable me to study in the Engineering College at Poona

I beg to add that I have stood first in the list of passed candidates from this School at all the three Examinations viz, Middle School, the Matriculation and the F A, Examinations

With due respects, I beg to remain

Respected Sir-

The petition of the undersigned most respectfully sheweth. —

The undersigned having heard that a Local Medical School will be established at Mysore and also that 3 scholarships have been allotted to the Bangalore District, humbly offers himself as one of the candidates for the same.

The undersigned has read two years in the Matriculation class of the Wesleyan High school at Bangalore and to certify it he enclosed a copy of the certificate given by Principal.

As the undersigned is very poor, and has no means to maintain himself better he, once more in conclusion, respectfully begs your honor will be kind enough so to recommend him for one of the scholarships allotted to the Bangalore District.

Begging to be excused for the intrusion

Proceedings of the Chief Commissioner of Mysore in the Revenue Department, (Educational),—dated 9th September 1880

READ—

Letter from the Director of Public Instruction in Mysore No 1897 of the 30th August 1880 in regard to the Engineering School at Bangalore

No 3356 68—EDL 48, DATED BANGALORE, 9TH SEPTEMBER 1880

ORDER THEREON —The annexed scheme of studies proposed by the Director for the School of Engineering is approved The Chief Commissioner also sanctions the employment of Mr Standish Lee on an allowance of Rs 200 a month to give instruction to the students for 3 days in the week for 3 hours each day He will be recognized as the Head of the School, and should arrange to divide the work with the Native Assistant now employed Arrangements should be made to open the school as early as practicable The Deputy Commissioners of the several Districts are requested to lose no time in selecting and sending up students with scholarships from their Districts as directed in paras 3 and 4 of the Proceedings No 2989 96—Edl 43 of the 17th August 1880 The Director should submit the necessary notification for publication in the Gazette

2 Separate orders will shortly be issued in regard to the class for Natural Science and the appointment of a Professor for the same, and the arrangements for instruction in Botany and Gardening at the Lal Bagh

3 With regard to the scholarships for the Engineering Colleges, as admission to these institutions cannot take place until the beginning of the next year, the selection of candidates may be deferred until November next, by which time greater publicity will have been given to the intention of the Government, and a wider field for selection afforded Meanwhile, a notification may be published in the Gazette of the number of scholarships which will be available Those selected should at least have passed the F A course

4 The cases of Anandatirtha Rao (1) and Jayasimha Rao (4), Mysore youths who are already in the Poona College, are peculiar and deserving of some encouragement As a special case the Chief Commissioner will give to these students a scholarship of Rs 15 each, as a help to them towards the completion of their studies

Letter from the Under Secretary to the Government of India Home Department No 1119 J G of the 14th May 1879

Letter from the Secretary to the Government of India, Home Department No 5313—87 dated 11th January 1880

Letter from the Secretary to the Government of India Home Department No 91 I P dated 5th March 1880

No 2989 96—EDL 43 DATED BANGALORE 17TH AUGUST 1880

ORDER—The difficulty of continuing the system of guarantee of appointments owing to approaching changes in the Administration and the uncertain demands of the public service the very small number of students who notwithstanding such guarantee presented themselves for instruction in the higher course of engineering and the consequent extreme costliness of the institution have necessitated the abolition of the Bangalore School of Engineering on a collegiate scale and it now becomes necessary to provide facilities for such of the youths of the Province as may desire to graduate in engineering in the colleges elsewhere and also to establish a local school on a lower scale for giving instruction of the standard required for Overseers Sub-Overseers and Taluk Mastris in the Public Works Department and for subordinates in the Survey Departments The Chief Commissioner resolves to issue the following instructions on the subject

2 A limited number of scholarships of 20 Rs each per month will be provided from the Provincial Funds to aid deserving young men in the Province who may desire to graduate in engineering in the College at Poona Madras or Calcutta Four scholarships will be thrown open in the current year and two more every year hereafter The Heads of Schools and the Deputy Commissioners of the Districts may send up through the Director of Public Instruction the names of any applicants who may possess the necessary educational qualifications and who by their intelligence character and active habits may give promise of turning out useful Engineers The scholarship will be tenable for the period required to complete the course prescribed subject to periodical reports of good conduct and progress from the Head of the Institution No guarantee can be given for employment in Mysore or elsewhere though preference would be given to those who had distinguished themselves at College in the selection for appointments in the Province

3 The local school for engineering will be held in the premises of the Central College at Bangalore and conducted by the Native Master now employed aided by an Assistant if hereafter found necessary It will provide instruction up to the standard required for Overseers in the Public Works Department embracing also the knowledge necessary for subordinates in the Revenue and Topographical Survey Departments Admission to the school will be open to all students who have matriculated or have studied for a year in a Matriculation class The school fee will be fixed at Rs 2 per month A limited number of scholarships of 8 Rs per mensem each will be provided out of the Local Funds of each District 3 for each of the Districts of Bangalore, Mysore and Shimoga and 1 for each of the remaining five Districts or 14 scholarships in all The Deputy Commissioners should in consultation with the Head Masters of the District Schools select deserving students and send them on such scholarships to the School at Bangalore where they will moreover be admitted free Any other poor and deserving students may also be excused the school fee at the discretion of the Director of Public Instruction.

4 The Director of Public Instruction is requested to arrange at once for the establishment of the school on the above terms and to submit after consultation with Majors Grant and Bowen a scheme of studies for the school The Deputy

Commissioners should at once take steps to select and send out students from their Districts as above directed

5 The Chief Commissioner considers it necessary for the success of the school that it should have also the assistance of some practical professional man of experience who, on a small monthly allowance, may be willing to undertake the instruction of the students in practical engineering, occasionally taking them out for experimental work, and holding examinations periodically The Superintending Engineer will be consulted as to how this can be best arranged

6 Should the Superintending Engineer consider that any of the existing Taluk Mestris will be better for some training in the school, arrangements should be made for admitting them and giving them the necessary instruction

7 No guarantee of appointments will be given, but the Heads of the Departments will be required to give preference in filling up appointments to those who pass out of the local school and who may be found deserving Not only is there a large field of employment for these men in the subordinate grades of the Public Works Department, as well as in the Revenue Survey and Topographical Survey Establishments, but the possession of such technical qualifications will count in their favor in the filling up of appointments also in the Revenue Department of the District and Taluks There should be no lack of inducement therefore to attract intelligent youths in the Province

8 The Chief Commissioner would further wish to make arrangements for efficient instruction in other branches of practical science, such as are likely to be useful to the students in their after life The University course, it is believed, now embraces Chemistry, Physiology and Physical Geography in the lower classes, but instruction in such subjects by masters who have not thoroughly studied them cannot be very valuable or sound If the services of a European or Native well versed in these subjects as well as in other kindred branches of knowledge, *viz*, Vegetable Physiology, and Botany, Geology and Meteorology, could be secured, he may with much practical advantage be employed as an itinerant teacher, giving a course of lectures in the above subjects for a certain portion of the year in each of the three principal schools in the Province at which both the students at the schools and any others anxious to learn may attend on payment of such fee as may be prescribed The Director is requested to offer any suggestions which may occur to him for practically carrying out some such arrangement

9 As the class for Forest students no longer exists, Mr Cameron may arrange to open a class at the Lal Bagh for giving instruction in Vegetable Physiology, Botany and Practical Gardening for a couple of hours in the morning 3 times a week during certain months of the year A moderate fee may be fixed, to be appropriated towards his remuneration for the work The hours should be so fixed as to suit both students from schools as well as any others desirous of availing themselves of the instruction The Director is requested to offer any suggestions on the subject in communication with the Director of the Lal Bagh and Mr Cameron.
